Cisco Packet Tracer Version 5.2 Keyboard Shortcuts

Last updated September 2, 2009

Cisco Packet Tracer version 5.2 includes keyboard shortcuts that make navigation and command activation more accessible. When Packet Tracer 5.2 is launched and the Tab key is pressed, components are selected in the following sequence:

1. The **Select** button

2. The top yellow tool bar

3. The workspace

4. The bottom yellow tool bar

5. The network component box (device types and device specific boxes)

Similarly when the device dialog is opened, a particular pattern is observed for Tab focus.

The following table lists all keyboard shortcuts available for Packet Tracer version 5.2:

Function	Keyboard Shortcut
New	Ctrl+N
Open	Ctrl+O
Open Samples	Ctrl+Shift+T
Save	Ctrl+S
Save As	Ctrl+Shift+S
Save As Pkz	Ctrl+Alt+Z
Print	Ctrl+P
Exit	Alt+F4
Copy	Ctrl+C
Paste	Ctrl+V
Undo	Ctrl+Z
Redo	Ctrl+Shift+Z
Preferences	Ctrl+R
User Profile	Ctrl+Shift+U
Algorithm Settings	Ctrl+Shift+M
Zoom In	Ctrl+I
Zoom Out	Ctrl+U
Zoom Reset	Ctrl+T
Main Toolbar	Ctrl+Shift+A
Right Toolbar	Ctrl+Shift+R
Bottom Toolbar	Ctrl+Shift+B
Palette Dialog	Ctrl+D
Custom Devices Dialog	Ctrl+E
Activity Wizard	Ctrl+W
Multiuser->Listen	Ctrl+Alt+L

Multiuser->Port Visibility	Ctrl+Alt+P
Multiuser->Options	Ctrl+Alt+Y
Multiuser->Save Offline Copy As	Ctrl+Alt+G
IPC->Config Apps	Ctrl+Shift+C
IPC->Show Active Apps	Ctrl+Shift+Q
IPC->Options	Ctrl+Shift+J
IPC->Log	Ctrl+Shift+K
Help->Contents	F1
Help->Tutorials	F11
Help->About	F12
[Root]	Ctrl+F5
New Cluster	Shift+U
Move Object	Shift+M
Set Tiled Background	Shift+I
Viewport	Shift+V
Select Mode	Esc
Move Layout Mode	M
Place Note Mode	N
Delete Mode	Delete
Inspect Mode	I
Resize Mode	Alt+R
Add Simple PDU	P
Add Complex PDU	C
Power Cycle Devices	Alt+S
Simulation Mode	Shift+S
Realtime Mode	Shift+R
Physical Workspace	Shift+P
Logical Workspace	Shift+L
Show Router Devices	Ctrl+Alt+R
Show Switch Devices	Ctrl+Alt+S
Show Hub Devices	Ctrl+Alt+U
Show Wirless Devices	Ctrl+Alt+W
Show Connections	Ctrl+Alt+C
Show End Devices	Ctrl+Alt+E
Show WAN Emulation	Ctrl+Alt+A
Show Custom Devices	Ctrl+Alt+T
Show Multiuser Connection	Ctrl+Alt+M
Add Device to Workspace	Ctrl+Alt+(# of device)
Scenario Description	Ctrl+Shift+I
New Scenario	Ctrl+Shift+N
Delete Scenario	Ctrl+Shift+D
Toggle PDU List Window	Ctrl+Shift+O
Navigation Panel	Shift+N
Create New City	Shift+C
Create New Building	Shift+B

Create New Closet	Shift+W
Show Grid	Shift+G
Working Closet	Shift+H
Show Rubber Rectangle on Device in Workspace	Ctrl+Spacebar
Move Rubber Rectangle	Arrow Key (right, left, up, down)
Select Device inside rubber rectangle	Spacebar
Show Device Dialog for selected device	Enter or return key
Move Selected Device	Ctrl-+Arrow Key (right, left, up, down)
Copy Text in CLI Console/Cmd Prompt	Ctrl-+Insert
Paste Text in CLI Console/Cmd Prompt	Shift-+Insert
Simulation Mode -> Back	Alt + B
